

PREPARE FOR THE WEB CONFERENCE

If this is your first e-CollabCenter.com Web Conference, attend the special test meeting well in advance of the planned meeting below to make sure that you can join easily.

Registered users may visit - <https://meeting.e-collabcenter.com/iwc/center/meetingwizard.jsp>

Refer to the Additional Tools section on the homepage for any training material or tutorials to help get familiar with the tools and services available on e-CollabCenter.

To join the conference, a Windows® XP computer is required with Microsoft's Internet Explorer® 6 SP2 or 7, Mozilla® 1.7.12, Mozilla Firefox® 1.5.0.x or 2.0.0.x (where x is a digit indicating the most recent release of Firefox). The browser must be configured to use Sun® JRE 1.5.0_12 or greater.

You must ensure TLS 1.0 setting is checked in your browser as well as your Java Control Panel. Please consult the eCollabCenter Workstation Preparation & New User Getting Started Guide <<https://www.e-collabcenter.com/wps/portal/gettingstarted>> for further details.

JOIN THE WEB CONFERENCE

1) Direct your web browser to the following URL:

<https://meeting.e-collabcenter.com/iwc/center/meetingdetails.jsp?meetingId=61F05D1FC9BA66A278C1F02298D79AD9>

2) When asked, enter your user name and password.

3) When prompted, enter the web conference password: appdevtim

ADDITIONAL WEB CONFERENCE DETAILS

Conference name: TIM for draft App Sec & Dev STIG

Conference description: (No description)

Password: appdevtim

Chair: SUE KREIGLINE

Start time:

Duration: 08 hours 00 minutes

MEETING ATTACHMENTS

Slides and files added to the meeting:

No attachments

END THE WEB CONFERENCE

After the Web Conference has completed, moderators should be sure to end their Web Conference. Ending a Web Conference disconnects all users, and stops all associated usage. A meeting can even be ended earlier than its scheduled duration.
